

July 2022

Dear Valued TEIN Customers,

Thank you for your continuous support to us, TEIN, and our products.

We regret to inform you that there will be some pricing changes, effective August 1st, 2022. We have been making our utmost effort to maintain the current prices, by cutting down on various costs and expenses, despite sharp rise in material costs in 2021; however, further increase in material and transportation costs, combined with currency volatility, all triggered and affected by unstable world situations this year so far, have forced us to reconsider pricing structure. Pricing will be revised as follows.

Note

Effective Date: August 1st, 2022

Item: all FLEX Z Damper kits

Price Change: MSRP will be increased by JPY15,000 per kit

*Please refer to "Product Search" section on our website for pricing details.

For questions & concerns, please kindly consult with any of TEIN authorized dealers; <https://tein.co.jp/e/distributors/List/index.php> or contact us via https://tein.co.jp/cgi_e/inquiry.html.

Thank you for your kind understanding and we sincerely hope to be of service to you for many more years to come.

Sincerely Yours,

TEIN, INC.
